

How to Set-Up Mobile Banking

1. Log-in to your online banking, using your normal Login ID and Password.
2. On the left-hand side of the page, under the “Preferences” tab, click “Mobile”
3. You will be taken to a page with two tabs. Under the first tab, “Mobile Enrollment”, checkmark or click on the box that reads “Yes, enable my User ID and Password for use on my mobile device.”
4. Go to the second tab, “Mobile Authorizations”, and create a 4-digit Mobile Authorization Code. Enter this 4-digit number in the specified box that reads “Mobile Authorization Code”. This code will be to authorize future transactions through mobile banking.
5. Enter an email address and a phone number in the specified boxes.
6. Click “Submit”
7. Once you have successfully updated your mobile settings, open your mobile browser and go to www.bankkansas.com
8. Once our webpage is pulled up on your mobile device, use your mobile navigations and “Add to Home Screen”. This should load the First State Bank icon to your mobile home screen.
9. Click on the First State Bank icon on your home screen to access First State Bank Mobile.
10. Click on the “Online Banking” tab and log-in using your normal Login ID and Password to access your accounts.
